DATE PREPARED 9 August 1950

PAGES 1 ENCLOSURES (NO. & TYPE).

REMARKS

50X1-HUM

1. On 30 July 1949, it was observed that a Soviet improvised airfield was being constructed at the eastern exit of Ingelsbrunn (R 1615). 7 km southeast of Arad. Leveling was being done south of the road. The laborers knew that an improvised airfield was being constructed. The entire working area was about 1,200 meters square.
2. [redacted] construction work for the improvised field was possibly being done there also. The work was done by Rumanians. Sand and crushed stones were hauled from the bank of the nearby Muresul River on Soviet Army trucks, driven by soldiers.
3. From the status of work on the southern side of the road and the fact that work was being [redacted] accelerated, it was thought the improvised field would be ready by the fall of 1949.

50X1-HUM

Comment. First information on the construction of an improvised airfield at Ingelsbrunn.
